LOCAL CONGREGATION TO CONSIDER UNION

Following the regular service at the local Union church on Sunday evening, January the 25th, the congregation will consider the question of entering the United Church of Canada. All members and adherents of the church are urged to be present on this occasion.

The local united congregation is made up of Baptists, Presbyterians, Methodists and others, and it is the most unique, and in fact the only one of its kind in Canada. The United Church of Canada is believed to have been patterned from the union here, which has been tried out and worked successfully for several years.

FARLEY SENT UP FOR TRIAL

The preliminary hearing of the case against A. F. Farley, charged with obtaining money under false pretences, took place at the local police court yesterday, Magistrate Gresham presiding. Evidence of a number of witnesses was taken and Farley was sent up for trial on bail of \$1000, but was latterly arrested on the charge of theft.

Farley has been the recognized proprietor of the Coleman Hotel at Coleman, and his actions during the latter part of December caused those financing the hotel to doubt his honesty.

Farley is being represented by D. H. Elton and his associate, Mr. Mucovitch, of Lethbridge. J. E. Gillis, of Gillis & Mackenzie, for the Crown.

Mr. and Mrs. Joseph McDougall returned this morning from their week's honeymoon trip, spent at Calgary, Banff and other points, and have taken up residence in apartments at the Blairmore rooming house.

COUNCIL MEETING

The regular meeting of the Blairmore town council on Monday night was attended by Mayor McLeod, Secretary Wright, and Councillors Ferguson, Montalbetti, Morgan, Patterson and Gillis. For business reasons, Councillor McDonald was absent.

The minutes of previous regular meeting were approved as read, and the following accounts were passed for payment, subject to approval by committees: A. Robbins \$17.50, R. Crayford \$46.50, West Canadian Collieries (for wool pipe) \$97.92, Pelly Cash \$17.10, Blairmore Hardware Co. \$49.35, Northern Electric Co. \$46.30, Canadian General Electric Co. \$10.63, Macdonald General Hospital \$86.50.

Councillor Gillis gave notice that at the next regular meeting of the council he would introduce a by-law to appoint a returning officer for the forthcoming municipal and school election.

Councillor Montalbetti gave notice that at the next regular meeting of the council he would introduce a by-law to amend the license by-law as affecting transient traders and dogs.

Question of raising rate of dog tax was brought up, and in this connection the secretary was instructed to have notice inserted in The Enterprise to the effect that all dogs not licensed and wearing tags after January 31st would be destroyed.

No other business, the council adjourned at 7.45.

ODDFELLOWS AND REBEKAHS HOLD JOINT INSTALLATION

At a mass meeting of members of Crowview Rebekah Lodge No. 66, and Blairmore Subordinate Lodge No. 68, I.O.O.F., held in the local lodge hall on Tuesday night, the officers of both lodges were duly installed by joint ceremony.

Upwards of seventy members were present for the occasion, including quite a number from Coleman.

George Christie, of Bellevue, as District Deputy Grand Master, installed the officers of Blairmore Lodge No. 66; while Mrs. D. Fraser, as District Deputy President of the Rebekah Assembly of Alberta, installed the officers of Crowview Rebekah Lodge.

The officers for the ensuing term are as follows:

Crowview Rebekah Lodge—
Junior Past Grand—Sister Dawson.
Noble Grand—Sister Davis.
Vice-Grand—Sister Walker.
Recording Secretary—Sister N. Evans.

Financial Secretary—Sister Wheatley.

Treasurer—Sister McKay.

Conductress—Sister W. Patterson.

Warden—Sister W. Christophers.

R.S.N.G.—Sister James.

L.S.N.G.—Sister L. Evans.

Inner Guard—Sister M. Harmer.

Outer Guard—Sister Joyce.

R.S.V.G.—Sister E. Kidd.

L.S.V.G.—Sister Warner.

Chaplain—Sister J. Patterson.

Blairmore Lodge No. 68—
J.P.G.—Bro. A. Morency, P.G.

Noble Grand—Bro. D. A. Howe.

Vice-Grand—Bro. S. Simister.

Recording Secretary—Bro. J. B. Harmer, E.G.

Financial Secretary—To fill.

Treasurer—Bro. J. Montalbetti, P.G.

Warden—Bro. G. Patterson.

Conductor—Bro. R. Crayford.

R.S.N.G.—Bro. W. T. Patterson, P.G.

L.S.N.G.—Bro. John Patterson, P.G.

Inner Guard—Bro. Joseph Howe.

Outer Guard—Bro. T. S. Dawson, P.G.

R.S.V.G.—Bro. G. B. Gillespie.

L.S.V.G.—Bro. W. McVey, P.G.

Chaplain—Bro. J. R. Gresham.

R.S.S.—Bro. F. Wheatley.

L.S.S.—Bro. E. Dicken.

Following the installation ceremony, a turkey supper was served and a programme of speeches, songs, dancing, etc., was indulged in until 1.30 a.m.

mony, a turkey supper was served and a programme of speeches, songs, dancing, etc., was indulged in until 1.30 a.m.

"PRIVATE SECRETARY"

TO BE STAGED HERE

The popular farcical-comedy, "The Private Secretary," is shortly to be staged in Blairmore by local talent. Those responsible for the undertaking state that they have sufficient local talent to put the play on properly, and if successful it will be repeated in neighboring towns.

The first appearance here will be under the auspices of the Blairmore Lodge of the Benevolent and Protective Order of Elks.

Candidates for council for 1915 need not take it that to qualify they must be prepared to accept free light and water for their services. Only a part of the present council are accepting such.

BISHUN SINGH WINS CASE

Judgment in favor of Bishun Singh, a Hindu, was handed down by Judge McDonald on Tuesday in an action taken against Wilfred Wolstenholme for the recovery of a sum of money.

Arising from this case is a charge of perjury against Mrs. Minnie Wolstenholme, who was arrested, but has been released on bail to appear next Wednesday for trial. Bail of \$1000 was accepted.

NOTICE

NOTICE is hereby given that all dog licenses must be paid on or before January 31st, and that all dogs licensed must wear the tag. After the above date, dogs not licensed and found without tag will be destroyed.

By Order of
The Town of Blairmore
Dated at Blairmore this 15th day of January, 1925. [15-22]

A Lesson in Success

Teach your children to save. Open a Union Bank Savings Account for each of them. Let them be friends with the Bank Teller and take their own deposits to him.

The easiest road to success is the savings habit.

A Romance of the Spanish Main CAPTAIN BLOOD RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini
"CAPTAIN BLOOD," a romance picture by W. Warren Kerrigan
in the title role, in an adaptation of this thrilling novel.

SYNOPSIS

Peter Blood, a young Irish physician, is taken prisoner, charged with treason while treating the wounded after the battle of Oglethorpe's Farm between Monmouth rebels and the soldiers of King James. With Jeremy Pitt and Yeoman Baynes he is brought to trial before the bloody Lord Jeffreys. They are sentenced to death, but King James orders the rebels-convict sent to the colonies, there to be sold as slaves. Blood, Pitt and about fifty others are put aboard ship and conveyed to Bridgetown, Barbadoes. There Governor Steed, Colonel Bishop and other citizens inspect the slaves and buy them. Arabella Bishop, niece of the Colonel, calls his attention to Blood, but the military commander sneers at the "bare bones." Captain Gardner, however, who brought the rebels-convict to the Barbadoes, tells the Colonel of Blood's ability as a physician and how he saved the lives of others on ship. He names a price of fifteen pounds for the physician.

CHAPTER IV.—(Continued)

There came a chuckle from Governor Steed. "You hear, Colonel, Trust your place. Her sex knows a man when it sees one." And he laughed. But he laughed alone. A cloud of annoyance swept across the face of the Colonel's niece. Jeremy Pitt had almost ceased to breathe.

"I'll give you ten pounds for him," said the Colonel at last.

Peter Blood prayed that the offer might be rejected. For no reason that he could have given you, he was taken with repugnance at the thought of becoming the property of this greedy animal, and in some sort the property

"I think I know you, sir," she said of that hazel-eyed young girl. But it would need more than repugnance to save him from his destiny. "A slave is a slave, and has no power to shape his fate." Peter Blood was sold to Colonel Bishop—a disdained buyer—for the ignominious sum of ten pounds.

CHAPTER V.

Arabella Bishop

One sunny morning in January, about a month after the arrival of the Jamaica Merchant at Bridgetown, Miss Arabella Bishop rode out from her uncle's fine house on the heights to the northwest of the city. She was attended by two negroes who trotted after her at a respectful distance. Reaching the summit of a gently grassy slope, she met a tall, lean man.

ABLE TO DO HOUSEWORK NOW

Sick a Year. Got Great Benefit from Lydia E. Pinkham's Vegetable Compound

Bloomington, N. B.—"I took Lydia E. Pinkham's Vegetable Compound for pains and backache. I also suffered from nervousness, sick headaches and sleeplessness. I was troubled in this way for over a year, and a friend told me about the Vegetable Compound and induced me to take it. I must say I have received great benefit from it and am able to do my housework now. I recommend the Compound myself and am willing for you to use this letter as a testimonial."—Mrs. WILLIAM MOSS, Bloomington, Annapolis County, N. B.

Do you know that in a recent census among women users of the Vegetable Compound over 220,000 were recovered. To the question, "Have you received benefit by taking this medicine?" 98 per cent replied "Yes." This means that out of every 100 women are in better health because they have given this medicine a fair trial.

Mrs. Moore is simply another case of a woman recovering "good health." Women suffering from the troubles so common to their sex should listen to what other women say who have experienced the same sufferings and found relief. Give this dependable medicine a chance—and at once. It is sold at all drug stores.

W. M. U. 1559

dressed in a sober, gentlemanly fashion, who was walking in the opposite direction. Miss Arabella drew rein.

"I think I know you, sir," she said.

Her voice was crisp and boyish. It drew, perhaps from an ease, a directness, which, disdained by artifices of her sex, and set her on good terms with all the world. To this it may be due that Miss Arabella had reached the age of five and twenty not merely unmarried but unwedded. She used with all men a stately frankness.

The stranger came to a standstill upon being addressed.

"A lady should know her own property," said he.

"My property?"

"Your uncle's landings. I am called Peter Blood."

She recognized him, then. She had heard that this rebel-convict had been discovered to be a physician. Governor Steed, who suffered damnable from the gout, had borrowed the fellow from his purchaser. Peter Blood had afforded the Governor relief, and the Governor's lady had desired him to attend her for the migraines. Mr. Blood prescribed for her and who had conducted her to the hotel for his prescriptions. After that Colonel Bishop had found that there was more profit to be made out of this new slave by leaving him to pursue his profession than by setting him to work on the plantation.

"If some other planter had bought me," Mr. Blood explained, as he thanked her, "it is odds that the facts of my shining abilities might never have been brought to light."

"I perceived your interest when you once bought me." At the time I resented it."

"You resented it?" There was a challenge in her boyish voice.

"I have had no lack of experiences of the mortal cost to be bought and sold was a new one and I was hardly in the mood to love my purchaser."

"If I urged you upon my uncle, sir, it was that I commiserated you."

"This proceeded to explain herself. "My uncle may appear to you a hard man. They are all hard men, these planters. It is the life, I suppose. There are others here who are worse."

"This interest in a stranger."

"He began. Then changed the direction of his probe. "But there were others as deserving of commendation."

"You did not seem quite like the others."

"I am not," said he.

"Oh!" she stared at him, bridling a little. "You have a good opinion of yourself."

"On the contrary. The others are all worthy rebels. I am not."

"But if you are not a rebel, how come you here?"

"Faith, now, it's a long story," said he.

"And one perhaps that you would prefer not to tell." Briefly on that he told her.

"My God. What an infamy!" she cried, when he had done.

"Oh, it's a sweet country England under King James! There's no need to commiserate me further. All things considered I prefer Barbadoes. Here at least one can believe in God."

"Is that so difficult elsewhere?" she asked him, and she was very grave.

"Men make it so."

She moved on. Her negroes sprang up and went trotting after her. It was a fair enough prospect, he reflected, but it was a prison, and, in announcing that he preferred it to England, he had indulged that almost laudable form of boasting which lies in belittling one's misadventures.

Of the forty-two who had been landed with him from the Jamaica Merchant, Colonel Bishop had purchased no less than twenty-five. The remainder had gone to lesser planters, some of them to Speightstown, and others still farther north. What may have been the lot of the latter he could not tell, but among Bishop's slaves Peter Blood came and went freely and their lot he knew to be a brutalizing misery. If their labors flagged, there were the whips of the overseer and his men to quicken them. They went almost naked; they dwelt in squalor and they were ill-nourished, and he had seen and smelt and tasted to such insubordination, one of them who had rebelled against Kent, the brutal overseer, was lashed to death by negroes under his comrades' eyes.

Occasionally Peter Blood saw Miss Bishop, and they seldom met but that she paused to hold him in conversation for some moments, evincing her interest in him.

Though the same blood ran in her veins as in those of Colonel Bishop, yet her's was free of the vice that tainted her uncle's, for those vices

were not natural to that blood; they were, in his case, acquired. Her father, Tom Bishop (that name Colonel Bishop's brother), had been a kindly, chivalrous, gentle soul who, broken-hearted by the early death of his wife, had abandoned the Old World and sought an antidote for his grief in the new. He had come out to the Antilles, bringing with him his little daughter, then five years of age, and had given himself up to the life of a planter. He had prospered from the first, as men sometimes will who care nothing for prosperity. Prospering, he had betrothed him of his younger brother, a soldier at home reared something wild. He had advised him to come out to Barbadoes, and the advice, called at another season William Bishop might have scorned, reached him at a moment when his wildness was beginning to bear such fruit that a change of climate was desirable. William came, and was admitted by his generous brother to a partnership in the prosperous plantation. Some six years later, when Arabella was fifteen, her father died, leaving her in her uncle's guardianship. As things were, there was little love between uncle and niece. But she was dutiful to him, and he was circumspect in his behaviour before her. (To be continued)

New Building For Bank of England

Has Been in Present Home For Last 230 Years

"The old lady of Threadneedle Street" is packing her bag. She has been in her present home for the last 230 years, the most conservative little old lady in all history. But now she must move away for a while and others will seem strange indeed in the heart of London's financial district. Imagine the Bank of England doing business outside of Threadneedle Street! As soon think of the royal family housed elsewhere than Buckingham Palace.

The needs of modern business, however, must be met, and upon the site now occupied by the Bank of England's huge one-story building, a taller, up-to-date structure is to be erected. While this modernizing process is going on the "Old Lady of Threadneedle Street" will have temporary quarters in Bankers' Circus.

"Old Lady" has heavy purse to be moved, for at the last estimate there was no less than six billion dollars in gold and securities in the vaults.

Learned Professor Gives Ideas on Wearing Evening Dress

Now we have it on the authority of a learned professor that any man who puts on evening dress is likely to appear ill at ease in it unless his forefathers for at least 200 years have been accustomed to wear evening dress. There must be a lot of people whose forefathers for 200 years were not accustomed to wear evening dress. Unfortunately the learned professor does not explain how it is possible for a man who wants to appear comfortable in evening dress to go to get his forefathers to prepare the way for him. And it seems a lot to ask that a man make himself in at least 200 years of evening dress merely that his descendants 200 years hence may appear comfortable—Stratford Beacon-Herald.

Plain As Day

Nothing To It When the Matter Was Explained

During the panic in 1908, bankers issued clearing house cheques to give their patrons. One day an old German went into the bank to draw some money and was given one of these cheques. He refused it. "The teller tried to explain that the cheques were as good as money and would pass for money. He had put good money into the bank and wanted that kind back. Failing to convince him, the teller turned him over to the president, and a long discussion followed. Finally the man saw through the scheme. 'It's just like a baby crying for milk, you don't give him milk,' said he. 'You give him a milk-dick!'"

Decline of the Romanoffs

The "Almanac de Gotha," which is published in Germany and is a Who's Who of royalty, contains in the new edition only one line referring to the Romanoff family of Russia. Before the war six pages were insufficient for the annals of that family.

When a man has a clear conscience he doesn't mind if people do see through him.

Record Vote For Coolidge

President Coolidge polled more votes in the November election than his two principal competitors combined. He had a popular vote of 7,523,827—the largest ever given a presidential candidate. Complete official returns show the vote for Mr. Coolidge was 15,713,789, compared to 8,873,962 for John W. Davis, and 4,823,319 for Robert M. La Follette.

Electrical Energy

One kilowatt hour of electrical energy will perform the following duties: drive a sewing machine for 20 hours; drive 35 steel table knives for a year; clip 6 horses or 25 sheep, and churn 440 pounds of butter.

A man always tries to follow the straight and narrow path when it comes to shovelling snow.

Quickly Conquers Constipation

Don't let constipation poison your blood and curtail your energy.

After liver and bowels are clogged, you don't work properly.

Early take CARTER'S LITTLE LIVER PILLS today and you'll be all right.

For indigestion, lack of appetite, headache and biliousness, nothing can equal them. Purely vegetable.

Scott Monument Unsafe

Memorial in Edinburgh Has Been Closed to Public

The monument to Sir Walter Scott, in Princes Street, Edinburgh, described as the finest memorial ever raised to an individual memory, is unsafe in its highest parts.

Edinburgh Town Council have permanently closed the upper portion to the public.

It would cost thousands for scaffolding alone to effect repairs. Some of the higher stones weigh a ton.

The monument, a Gothic structure 200 feet high, is adorned with 22 statues of the most striking of Sir Walter's characters. Under the canopy is a statue of Scott with his favorite dog Maida. It was completed at a cost of £18,000.

The designer, a working mason named George, was accidentally drowned in the Union Canal while his masterpiece was in course of construction.

In July of last year an ex-soldier was killed by a fall from the monument, the first accident of the kind since the monument was built 89 years ago.

The designer, a working mason named George, was accidentally drowned in the Union Canal while his masterpiece was in course of construction.

W. J. BAUTLETT, PUBLISHER

Blaimore, Alta., Thurs., Jan. 15, 1925

Last week a bunch of Alberta Liquor Control Act "stool pigeons" were thrust in upon the LAW-ABIDING people of this district, and, fortunately, as we understand, were unsuccessful in their efforts to cause law breaking. The public of this province were beginning to have regard and respect for the new liquor act, but once the system of stool-pigeons is adopted every iota of that respect and sympathy is lost. The stool-pigeon suggests the possibility of breaking the law, uses his best influence to get an innocent person to break the law, looking upon that individual with as much regard as a savage lion would have to take his life blood. These characters entered our beer dispensaries, which are being operated with every effort to observe the law. They have tried to purchase bottled beer and to get away from premises without having the stoppers removed. They have through asking and begging for hard liquor on these premises suggested that the proprietors or their servants would be guilty of such offense. We are in accord with any attempt made, above board, to catch anyone deliberately evading the liquor law, but have no sympathy for the stool-pigeon system above referred to.

WORK OF PROVINCIAL LABOR BUREAU

During the past year the various branches of the provincial labor bureau throughout the province placed a total of 33,941 men in positions, chiefly on farms, and also placed 7789 women. The cost per placement was 88 cents. The number of placements was considerably lower than the previous year, owing to the fact that a large number of extra hands were placed in the field during the heavy crop of 1923.

JUDGMENT AGAINST NADIN IS SUSTAINED

In the matter of the appeal of Frank Nadin, of Fernie, against the decision of Magistrate Gresham, the judgment was upheld by the appellate court.

As a result of the appellate court's decision, liquor cannot be transported by auto from British Columbia, or vice versa, through Alberta, and the legislation in force under the Canada Temperance Act and the old Alberta Liquor Act is sustained.

Nadin was arrested by Sergeant Duncan, of the Blaimore detachment of the A.P.P., in September last, and 41 cases of liquor, along with the car used for taking the liquor from British Columbia to Montana, were seized. The accused was fined \$500 under the Canada Temperance Act and \$200 under the Alberta Liquor Control Act, and the confiscation of the car has been ordered.

Mr. McGillivray, of Calgary, appeared for Nadin, while Mr. Gillis, of Gillis & Mackenzie, Blaimore, represented the Crown.

PUBLIC INVESTS SAVINGS WITH GOVERNMENT

The second largest year in the history of the provincial savings certificates system was recorded in 1924 when the people of the province invested savings with the provincial government to the extent of \$4,988,135.25. This is the largest total ever invested in any one year, but owing to the fact that five per cent issues were withdrawn by the government during the year, the net total remaining with the government after all

withdrawals were deducted was \$894,595.56, which is the largest net total since the year 1920. The total withdrawals during the year aside from the withdrawals of the five per cent issues were \$5,413,539.69. The figures of total investments quoted show that this form of savings investment is growing ever more popular.

"A NIGHT WI' BURNS"

Hillcrest local talent have been busy for some time practicing for a grand concert and play to be staged in the Union hall at Hillcrest on the night of Friday, January the 23rd, in celebration of Burns' anniversary. Some exceptionally fine talent has been secured and a splendid program is assured.

The following will take part:
Quartette—Mrs. Pinder, Miss Harris, Mr. Tonks and Mr. Crichton.
Dance, "The Highland Fling"—Misses Annie and Grace Penman.
Song—Mrs. W. Bain.
Sword Dance—Misses A. and G. Penman.
Dialogue—School Children.
Song—Mrs. Pinder.
Song—Mr. Tonks.
Musical Selection—Masters Miller, Jasbee and Kyle.
Song—Mrs. A. Petrie.
Song—Mr. J. Crichton.
Dance, "Irish Jig"—Misses A. and G. Penman.
Dialogue—School Children.
Dance, "Sailor's Hornpipe"—Misses A. and G. Penman.

Also selections interspersed by the Hillcrest orchestra.
Mason's orchestra will furnish music for the dance to follow.

The concert will commence at 7 p.m. sharp. Tickets are going like hotcakes.

Supper will be served at midnight.

The Fernie miners have asked the influence of the board of trade towards getting stores to lower prices of staple commodities.

This advertisement not inserted by the Alberta Liquor Control Board or the Government of the Province of Alberta.

Things of Alberta

THERE is no doubt that Alberta's fundamental position, her progress to date, and the conditions that have a bearing on her future development are such as to afford a sure basis for faith and confidence in this province and in the early realization of its vast possibilities. It is well, however, that the people of Alberta should make periodic examinations of these various factors in order that their individual faith and confidence may be strengthened and there may be stimulated that individual and collective initiative and enterprise which are so essential to the development to a young province.

It is peculiarly fitting that such an examination should be made in this first month of a new year when stock-taking is the order of the day in business establishments the world over. In these the goods upon the shelves and in the storehouses are being revalued, the records of development to date are being analyzed and estimates of probable development in the future are being made—all with a view to the adoption of such policies as will hasten that development and make it more profitable. This is equally necessary in public affairs and the purpose of this page is to present to the people of Alberta the results of a careful stock-taking of Alberta's progress to date, present position and probable development.

Rich Natural Resources Basis of Prosperity

AT the very foundation of Alberta's progress and prospects must be placed the rich natural resources and favorable climatic conditions with which a kind Providence has endowed this province. These are such as to have made Alberta's yield of wheat and oats higher on a ten-year average than those of any other province or state on this continent and of a very high quality also. Alberta has won two world's championships in wheat and five in oats and at the last five international shows at Chicago 115 other prizes in these two grains.

The same natural conditions are very favorable to the raising of livestock also. During the past four years livestock from this province, competing with the world, has won 43 prizes at Chicago, 101 at Toronto and 40 at Quebec—these including 10 championships.

Alberta has 50 per cent of all the coal in Canada, and 14 per cent of the world's coal supply. Her timber resources are considerable. She has other substantial natural resources in tar sands, gas, fish and game and there is good reason for believing that oil in commercial quantities and qualities will yet be found.

But even such an extent and variety of natural resources would be of little actual value today without reasonable prospects of early development. Estimates of the value of these resources are based on the record of actual development to date.

The 19 years since Alberta became a province form a natural period for a review of provincial development. What then is the record of development during that period?

—In population the increase has been four-fold.

—Railway mileage has increased almost five-fold.

AREA under cultivation has increased almost twenty-fold.

—Wheat production is twenty-nine times greater, comparing the yield of 1905 with the average of the past five years.

—In oats on the same basis of comparison, the increase has been seven-fold, the average for the past five years being 70 per cent of old Ontario's production for the same period.

—Livestock herds have increased, but in smaller proportion, and this province has now two of the four largest stockyards in Canada.

—Creamery butter production has increased from a negligible quantity in 1905 to 21,000,000 pounds in 1924.

—Poultry products have increased seven-fold until today Alberta has more hens per capita than any other province in Canada.

—Fishes which were of no commercial value as late as 10 years ago are now adding \$400,000 annually to Alberta's production.

—Coal production now exceeds that of Nova Scotia and British Columbia by 40 per cent of the total for all Canada.

—Manufacturing—practically unknown in 1905—represents today an investment of over \$15,000,000 and gives employment to over 12,000 people.

—Tourist traffic, also a negligible factor in 1905, has been greatly stimulated by improved roads and the establishment of five national parks and today brings to Alberta an annual expenditure of from \$15,000,000 to \$25,000,000.

—In terms of a single year's production, the products of agriculture and other natural resources represented in 1925 a total value of \$280,000,000 to which must be added \$45,000,000 for other manufactured products.

AS we pass each milestone of the passing years, particularly in the past few years, conditions generally have been somewhat abnormal and consequently difficult, it is timely and it is good business practice to quietly review our positions—to take stock.

We have progressed in Alberta in 1924.

Agricultural conditions in this province have been, in fact, particularly favorable with the conditions of the industry in other provinces of Canada and in other countries. There has been a steady, sustained improvement in agriculture in 1924, which has been reflected in the general betterment in general business in the West. Nothing spectacular about it, but an indication that the strain of the past few years is now passing off, that the process of re-adjustment is going on apace, and that we may reasonably look for continued improvement, leading in the due season to a return of sound normal prosperity. How soon we reach that point depends in large measure upon our faith in Canada and our confidence in ourselves.

It has been said with a great deal of truth that confidence and enterprise beget prosperity.

May all Albertans by their confidence and enterprise establish their claim to it in 1925.

H. G. GREENFIELD,
Premier of Alberta.

FIFTY years ago nothing had been done in what is now the Province of Alberta in the way of agricultural settlement. The whole process of acquisition and settlement of the land with the consequent development of educational, municipal and judicial institutions has been wrought within a single life-time, while politically the advancement from personal rule to representative government has been made in less than one-third of a century.

When we consider the development that took place before the war and the recovery that has been made in face of adverse world conditions, since the proclamation of peace, when we count the advantages and blessings of our present conditions, when we list the resources, possibilities and opportunities our province affords, we have good reasons and positive assurance for being enthusiastically optimistic of the future.

We have a province favored by Providence and have our future in our own hands, our faith in our country is well founded and grounded. Let us go forward with courage, for if we work in unity we are bound to achieve success.

R. G. BRETT,

Lieutenant-Governor of Alberta.

A Steady Growth Along Educational Lines

NOR is it only along commercial lines that Alberta has made rapid development.

The provincial university, starting with three rented rooms and an enrolment of 45 shortly after the province was formed, has now a plant valued at over four million dollars and an enrolment of 1800. It has attained a world-wide reputation through its high educational standards, and administrative efficiency and the outstanding character of special work of its president and other members of its staff.

The Institute of Technology and Art at Calgary, established at a later date, has already an enrolment of 1000.

In the public and high schools enrolment has increased five-fold while the increase in value of school properties has been twenty-fold.

Regular classes in these institutions have been supplemented by correspondence and lecture courses and travelling libraries arranged by the University of Alberta.

A provincial research council has been established for the purpose of promoting scientific knowledge and scientific research particularly with regard to Alberta's natural resources.

Individually as well as collectively there has been a marked development in attention to the finer things of life—the fine arts and sciences—constructive thought—mental—social and spiritual ideals.

NOR service more valuable could be performed by the press of Alberta for the people of the province than to review for them in this concise form the progress that has been made since the province was organized, and to set forth the great natural wealth with which Alberta is endowed. It is most desirable that from time to time we renew our faith and confidence in this country by taking full stock of what we are and of what we have.

We are destined to prosper here in Alberta. We can realize this destiny only by retaining our faith and by unifying our efforts to make the one end of the upbuilding of a prosperous and happy citizenship.

GEORGE HADLEY,

Minister of Agriculture of Alberta.

University of Alberta Playing Large Part in Development

FOUR years ago the agricultural department of the University of Alberta reveals active investigation in animal feeding and disease, efforts to develop new varieties of plants and to solve the problem of plant hardiness. A soil survey of the province is in progress and experiments looking to the control of economic pests are under way.

In co-operation with the Alberta Research Council, interesting tests of house-heaters are being conducted, and a chemical survey of our soils is bringing to light new data of great significance to the basic industry. 1925 will probably see the completion of investigation in the application of oil to a surface soil with a view to the construction of a cheap and serviceable roadway. A field examination of the McMurray tar sand area was carried on last summer, and reliable information is now available touching the mining problems confronting industrial concerns planning development of this great natural resource.

Dean Boyle has continued his remarkable experiments in high frequency mechanical vibration, the purpose of which is the detection of subversive objects at sea, as well, of course, as the accomplishment of other and more purely scientific ends.

In addition to carrying forward experimentation in insulin, the Department of Bio-Chemistry has recently secured highly significant results from investigation of the parathyroid gland. Announcement of this work was made by Professor Collip at a meeting in Washington of the Endocrine Society for the Advancement of Science.

W. A. R. KERR,

Dean of the University of Alberta.

Alberta's Development at a Glance

	1905	1924
Population	160,000	637,000
Wheat Production, bushels	3,035,843	*65,000,000
Oats Production, bushels	11,728,314	*63,000,000
Coal Production, tons	811,228	** 5,000,000
Number of Men Employed in Mines	1,800	12,000
Value Coal Production	\$ 3,000,000	\$ 20,000,000
Railway Mileage	1,060	4,700
Acreage Under Cultivation	616,821	12,000,000
Butter Production, in pounds	1,000,000	21,000,000
School Enrolment	28,784	128,000
Number School Districts	585	3,388
Capital Invested in Manufacturing	—	\$ 55,000,000
Yearly Payroll in Manufacturing	—	\$ 66,000,000
Number Employed in Manufacturing	—	12,000
University Enrolment (1908)	45	1,350
Value Poultry and Products (1912)	\$ 2,000,000	\$ 9,000,000
Value Agricultural Products	\$20,000,000	\$225,000,000
Number of Farms	25,000	90,000

—Year of 1923 was record. Yields of that year were 167,000,000 bushels wheat and 114,000,000 bushels oats.

—Total reduced by 7 1/2 months' coal strike. Total tonnage for 1923 was 6,865,000.

Factors that Assure Rapid Development

THERE is sure ground for believing that Alberta's development in the near future will be even more rapid and more prosperous than heretofore.

No other province stands to gain quite as much from the more aggressive immigration and colonization policy which is almost certain to be adopted in the near future by the federal government. Alberta has a larger proportion of unoccupied arable land than any other province and it is largely to land settlement in this province that immigration and colonization efforts would be directed.

Outside capital also will come into Alberta in increasing measure. Her record of achievement to date and her rich natural resources will arouse a wide-spread interest in the possibilities for investment within her border.

Her record of achievement to date and her rich natural resources will arouse a wide-spread interest in the possibilities for investment within her border. Outside capital also will come into Alberta in increasing measure. Her record of achievement to date and her rich natural resources will arouse a wide-spread interest in the possibilities for investment within her border.

Outside capital also will come into Alberta in increasing measure. Her record of achievement to date and her rich natural resources will arouse a wide-spread interest in the possibilities for investment within her border.

Pacific watershed as well as one tributary to the Atlantic. When this is given full effect in freight schedules Alberta will realize the advantage of her geographical position close to the Pacific coast and to a water route to Europe. This will mean lower freight rates for Alberta farmers on all they sell for export and lower cost to all in Alberta on what is brought in from other provinces and countries for consumption here.

Extension of trade with the Orient will hasten Alberta's development. "Already new markets are being found there for what, flour, livestock, butter and cheese produced in this province. These markets are certain to be extended. Reason, the noted economist, says the great trade of the future will be with the Orient. Alberta, as the most westerly of Canada's prairie provinces, is in a very favorable position for supplying the Orient's requirements in agricultural products.

National consideration will bring about in the not far distant future the use of Alberta coal in Ontario and this will give a great impetus to the coal industry of this province.

Vast Acreages Ready for Settlement

SUCH a record of achievement would inspire confidence in any province. It is made by a new province using but a small portion of its natural resources.

With all her development in agricultural production only 15 per cent of Alberta's arable land is under cultivation. At least 20,000,000 acres—two-thirds greater than the area now in use—is still lying idle and uncultivated within 25 miles of convenient railways. Of these half a million acres are within the boundaries of established irrigation districts requiring only the construction of laterals to make them fully available for cultivation.

All of these factors and certain conditions that will make for more rapid development in future constitute the great strength of Alberta's present position. With an area twice that of the British Isles, Alberta has only one and a quarter per cent of the population of the United Kingdom. Within the borders of this province there could be accommodated geographically all the people of Germany or France or nine of the most populous of the New England and Atlantic states. The frame-work for a large population, engaged in a wide variety of pursuits and representing a production of high commercial value has been largely prepared. That preparation has imposed a heavy burden upon the relatively few people who had to bear it, but the filling in will bring increased prosperity to them and good returns to those who are attracted to this province in the process.

IN taking stock of Alberta it is necessary to remember that the province covers a considerable amount of territory—more than 660,000 square miles. In 1905, since the country was settled, has it been possible to say that conditions have been generally the same throughout the whole province? Generally speaking, however, decided progress has been made and there is every reason to expect steady improvement in the future.

The efforts being made to arrive at a solution of the vexing and perplexing questions, such as the settlement of the semi-arid areas and better facilities for the marketing of our products, are important and must make for improved conditions.

E. J. FREEMAN,

Utilities Commissioner for Alberta.

Managers of Stockyards See Markets Opening for Alberta

THE outlook for the livestock industry to us has always been bright in Alberta and our faith in this particular industry has induced our company, for the past few years to adopt a policy of expansion in livestock stock and developments which are sure to come. Interests in the livestock trade, both in the United States and European countries, especially the British Isles, have for some time realized the value of the Alberta Steer.

With the largest product on grain per acre and the best quality at lowest cost, together with the ideal climate for feeding and finishing steers, a big company has been recently organized to finish and fatten Alberta cattle for the best markets in the world. This will give the Alberta producer additional markets.

J. L. JUHLIN,

Managing Director of the Edmonton Stockyards.

IN 1925 Canada sold approximately five hundred million dollars worth of livestock products. During 1924 values on livestock stock and livestock have shown slight increases with sheep value decidedly improved. Generally the livestock situation for the past twelve months has been a most satisfactory one compared with the previous years.

As to the future, we hope and expect that values will advance and prices will increase to prices almost unprecedented and continued cold and deep snow have necessitated generous feeding of expensive feeds to all classes of livestock stock. This indicates that higher livestock values follow high grain prices, therefore there should be material improvement in 1926.

E. W. JONES,

Mgr. and Sec. of the Alberta Stockyards, Calgary.

Confidence and United Effort Necessary

BUT back of all these various factors there are three others that are requisite to the adequate development of this province. These are:

1. An intelligent, well-informed confidence of all the people of Alberta in this province and in its future.

2. A definite, soundly based program of development.

3. A shoulder to shoulder movement of all the people in promoting Alberta's development.

With these three last mentioned factors in full force and operation in conjunction with her great natural advantages, there is no doubt whatever that Alberta will move forward with increased rapidity to the attainment of the great destiny for which Providence has so evidently prepared this province.

W. T. CREIGHTON,

President, Mortgage Loan Association of Alberta.

THIS page is published by this newspaper as part of a united effort of the Alberta Press Association to place before the people of Alberta the strong fundamental position of this province, her progress to date, and her probable development.

Alberta Press Association includes in its membership the great majority of the daily and weekly newspapers of this province.

TO ORGANIZE A COARSE GRAIN POOL FOR WEST

Brandon.—Just a year after they had directed that a co-operative wheat pool be organized, the United Farmers of Manitoba heard officials of the pool report on results of the first year's operations.

A show of hands indicated that the great majority of those present were former pool members, and the delegates heartily endorsed the pool and its extension to coarse grains, to operate for the 1925 crop.

C. S. Burnell, President of the Manitoba pool, said 91,291 farmers in the three provinces now stand shoulder to shoulder in marketing their wheat. Of these 9,224 were in Manitoba, 30,749 in Alberta and 51,213 in Saskatchewan. Altogether they represented about eleven million acres. Mr. Burnell said he was unable to say what members would get for their wheat. He could say, however, that an interim payment would be made before seedling. It would be as large as it could be with safety to the pool, and, if possible, equal on all grades of wheat, and he believed it would be satisfactory.

A campaign for members of the coarse grain pool will be undertaken at once by the wheat pool organization. The new pool will handle oats, barley, flax and rye and will be operated if 5,000 signatures are received. Contracts will be for five years.

Mr. Burnell said he had every hope that Alberta and Saskatchewan also would come in. Mr. Burnell said co-operation had been the leading spirit in the farmers movement for 25 years.

Again in Effect

Crow's Nest Rates Effective Pending Supreme Court Decision

Toronto.—The Crow's Nest Pass agreement rates, westbound, which were in force from July 7 to October 27 last, cancelled by the decision of the Board of Railway Commissioners and temporarily restored by the recent order of the Privy Council, have again come into effect.

The lower rates have been put into force pending the decision of the Supreme Court of Canada from the judgment of the Board of Railway Commissioners, and argument on this appeal will be heard at the beginning of the February sittings.

Britain's New Delegate To Opium Conference

Marquis of Salisbury Has Been Appointed Chief Representative
Geneva.—What is generally believed to be an important development in the war on opium, came in a formal notification by the British Government to the League of Nations that the Marquis of Salisbury had been appointed chief British representative to the international opium conference.

It is believed Great Britain's decision to send Lord Salisbury, Secretary of the State for Foreign Affairs, will be followed by the appointment of new delegates of high rank by France and Holland.

Canada's Most Serious Problem

Over-Taxation Says President of Royal Bank

Montreal.—At the general meeting of the Royal Bank of Canada, Sir Herbert Holt, the President, declared that there was a very serious problem facing the people of Canada today and that was the problem of over-taxation. He expressed the view that the world may, in the course of 1925, return to a gold standard. The establishment of a central budget bureau was also mooted by the President.

S.C. Diver Fights Shark

Vancouver.—Encumbered by his heavy diving suit and at a depth of 90 feet below the surface of the water, Jack Bruce, a diver, fought and killed a shark as long as two inches in length which attacked him again and again at the bottom of the Second Narrows here. The struggle lasted 20 minutes, Bruce striking the huge fish time after time with an iron bar until he killed it.

Prevent Removal of Loan

Ottawa.—General A. E. Ross, M.P. of Kingston, Ont., has given notice of motion for consideration at the coming session of Parliament "that this Government is to prevent the removal of the country of capital accumulated from the natural resources of the country."

Says Agricultural Credits Fundamental Requisite

Brandon, Man.—Farmers of Canada were urged to employ greater efficiency in management; to be scrupulous as to their debts and to regard as the permanent solution of their difficulties the securing of profitable markets, during the course of President A. J. M. Poon's address before the convention of the United Farmers of Manitoba here. Serious attention should be given the matter of agricultural credits as a fundamental requisite for successful farming. It was not so much a question of more credits but of conditions of credits.

Woman Prospector Dead

One of First to Enter Uncharted Field of Alaska

Tucson, Arizona.—The career of a woman who commanded the respect of that rough and ready element which prospects for gold from Arizona to the Arctic region set Canada and Alaska was closed Jan. 7, when the body of Mrs. Nellie Cashman was lowered into its earth vault in Victoria, B.C.

Friends recalled the days of 1877 when Miss Cashman came to Arizona, following the lure of the gold. In the early eighties she was the first of a group of the state's present millionaires on the gamble that they would find a "strike" in the Tombstone, Arizona, gold field. Later she used the money returned by those men to finance a trip to Alaska, where she outfitted and pushed into the interior again seeking gold.

One of the first of the daring band of women to enter the frozen, uncharted fields of Alaska, she served as nurse at many mining camps, at the same time prospecting and staking her own claims.

Expanding Arctic Trade

Hudson's Bay Company Pushing Development in Arctic Territory

Vancouver.—The Hudson's Bay Company is carrying on a very active campaign of development in the Arctic lands, it is stated here, and is pressing farther east from this side and farther west from the Atlantic, expecting soon to be in touch, yearly, from Atlantic to Pacific via the Arctic.

From the western side, pioneering and trading posts have been pushed far beyond Coronation Gulf, and are now in King William's Land.

A strong wooden vessel of 100 tons, with gasoline power is being constructed in Britain to distribute stores west of Coronation Gulf and will go into the Arctic in 1926.

A large new ice vessel is also to be laid down in British yards at once and will be ready for the next year.

Progressive Party Active

Completion of H.B. Road to Be Plank in Platform

Winnipeg.—Organization of a Greater Winnipeg Branch of the Progressive Party of Canada will be effected before the next session of Parliament, according to a statement by John MacLean, organizer of the On-to-the-Bay Association.

Completion of the Hudson Bay Railway will be the principal plank in the platform of the branch, Mr. MacLean declared, while the other plank is the question of an election in 1925, and the question would become a cardinal issue in the west.

Would Fine Non-Voters

Failure to Exercise Franchise Should Be Punished Says Rev. Agar

Toronto.—Addressing the York Pioneer, Rev. Robert Agar, General Secretary of the Social Service Council of Ontario, suggested that a fine be imposed on all citizens who fail to exercise their franchise in municipal or other elections. The best in politics, he would never be brought out, he said, until all citizens showed their interest in the Government. Besides imposing a fine for failing to vote, Rev. Mr. Agar said he would deprive the persons of the franchise.

BattleShip At Target

Portsmouth, Eng.—The battleship Monarch, the last capital ship which Great Britain scraps under the Washington Treaty, will be taken to Plymouth and before the end of the month will go to sea to become a target for the vessels of the Atlantic fleet. The Monarch, from which all salient furnishings have been removed, must be completely destroyed by February 1.

Quebec Legislature

Quebec.—Lieutenant-Governor Narcisse Hudeboud opened the second session of the sixteenth legislature here. After the usual formalities the speech from the throne was delivered by His Honor to both houses.

Will Co-operate In Export Of Steel

Germany and France Will Join to Find Market Says Sir William Larkie

London.—Sir William J. Larkie, Director, National Federation of Iron and Steel Manufacturers, told a gathering of manufacturers that there was every reason to believe France and Germany would co-operate in finding markets for their exportable surplus of iron and steel, and that their British competitors must be prepared for that co-operation.

Sir William declared that Britons in the iron and steel business for a long time to come must centre their interest upon European producing countries, since the U.S. for several years would be fully engaged with her own domestic production and demand.

Sir William said Germany absorbed about 80 per cent. of her own steel and iron products, leaving an exportable surplus of 3,000,000 tons yearly. He gave the following figures as the approximate capacity production: Great Britain, 12,000,000 tons; France, 10,000,000 tons; Germany, 14,000,000 tons; United States, 10,000,000 tons; Belgium, 3,225,000 tons.

ESTIMATES NOW ARE IN COURSE OF PREPARATION

Ottawa.—The Cabinet Council at a recent sitting found many matters of import awaiting its consideration.

The Prime Minister had no announcements to make at the end of the meeting. It is understood that the report of the Royal Grain Inquiry Commission was considered in part, and that a programme of pre-seasonal work was mapped out. The preparation of estimates is under way, but progress has been made in this direction than had been made at this time last year, so that the main estimates probably will be brought down to the House this year some what later.

The Campbell report on coal supplies to the Tuxedo Barracks, in Winnipeg, remains to be considered in council. Nothing definite has been done about filling the five vacancies in the Senate. The question of the diversion of water from the Great Lakes by the Chicago drainage canal remains in status quo, so far as Canada is concerned. The whole matter is being threshed out in the United States courts and Congress, with Canada's position as being one of opposition to a continuation of the levy now being made by the City of Chicago on Great Lakes waters.

East and West

Suicidal Policies May Ultimately Lead To Separation

Brandon, Man.—The possibility of serious friction between Eastern and Western Canada was suggested by Mrs. Jas. Elliott, President of the United Farm Women of Manitoba, in her address to the annual convention of that association.

"The attitude of Eastern Canada to Western Canada," she said, "is strikingly similar to the attitude of Great Britain to the United States prior to the revolution. The colonies were looked upon by the people of Great Britain with one or two notable exceptions as a happy hunting ground for exploitation, the extraction of wealth and the imposition of onerous taxes. One cannot but wonder if history will repeat itself and the attitude of the east ultimately force the people of the west to seek some form of self-government. Such a suicidal policy is to be deprecated."

Does Not Apply to British

London.—Following the announcement from Melbourne that no immigrant grant would be allowed to land in Australia after March 31, of this year, unless in possession of at least forty pounds, Sir Joseph Cook, High Commissioner in Australia in London, said the proviso will not be applied to British immigrants.

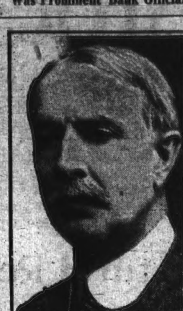

May Sue Ford For Libel

Chicago, Ill.—The Islero attorney, who is here attending the meeting of the National Council of Co-operative Marketing Associations, has announced his intention of filing a libel suit of \$100,000 against Henry Ford. The action will be based on an article which appeared in Ford's paper, the Dearborn Independent.

Prairie Summer Fairs

Regina.—To make plans for the prairie exhibition on the 1925 season, representatives of the directorate of the Regina exhibition will go to Edmonton on January 20 to meet the members of the western fair circuit. Some changes in midway and other attractions are also being considered for the summer fair in the west.

Was Prominent Bank Official

D. A. CAMERON

former President Toronto Board of Trade, and well-known official of the Canadian Bank of Commerce, whose sudden death was reported recently.

Saskatchewan's Claim To Natural Resources

Urging Arranging For Transfer to Province's Public Domain

Regina.—Trenchant arguments in support of Saskatchewan's claim to the natural resources of the province were advanced in the Saskatchewan Legislature when a resolution calling upon the Provincial Government to continue to urge upon the Dominion Government "the necessity for arranging for the transfer to the province of the public domain within its limits without delay," was carried.

W. H. McKinnon (Government, Wadena) moved the resolution, which was seconded by T. H. Garry (Government, Yorkton).

Hon. J. G. Gardiner, Minister of Highways, was the only other speaker to the resolution which carried unanimously. He marshalled facts and figures to show that Canada was the only part of the British Empire where the policy of passing over the administration of natural resources and lands to the self-governing body had been reversed. Even if Saskatchewan were given the maximum subsidy of \$11,312,600 in perpetuity together with the return of the lands and natural resources not yet alienated, the province would only be getting half what was received by Prince Edward Island in 1873, he declared.

Denmark May Sell Arms and Munitions

Defense Minister's Bill Would Virtually Abolish Danish Army
Copenhagen.—An unnamed Greek, described as being in close touch with the Athens Government, has inquired through the Danish consul at Hamburg whether Denmark is willing to sell all her arms and war material. Defense Minister Rasmussen, interviewed on the subject by the newspaper Ekstrabladet, said: "I am only aware of the offer through the newspapers, but of course we are willing to sell if my government bill becomes a law."

The minister added that if the Folkething (House of Commons) accepts the bill and the Landsting (Senate) rejects it, the Government must certainly dissolve Parliament and submit the question to the electors.

M. Rasmussen's bill, presented to the Folkething on October 8, would virtually abolish the Danish army and navy, leaving only frontier and customs guards and a number of vessels for coast duty.

British Government Help

Lending £300 to Each Farmer Coming To Canada

London.—Following the plan being made to convey more than 200 families comprising 1,000 persons, from the agricultural areas of the United Kingdom to Canada, the Daily Telegraph says: "These are to settle on farms and many are being brought out through the joint action of the British and Canadian Governments. Residents of the north of Scotland, South Wales and the west and south of England will be among the 200 emigrating families. The British Government is lending £300 for the equipment of each farm taken up by the new settlers in Canada."

Another 1,000 emigrants will leave for Canada later.

New Flowering Plants

Ottawa.—Seven new horticultural plants have been accepted by the Canadian Horticultural Council for recording in the exhibition on the 1925 season. Florence McLean, the border carnation, Margaret Weir, the delphinium, John Moore, the iris, Mount Royal, the apple, Morgan had Imperial, and the apple, Morgan, promised to be a cross between the Snow and the Northern Spy.

Permanent Canadian League Representative

Geneva.—League of Nations circles were greatly interested in the announcement that Dr. Walter A. Riddell had been appointed the permanent Canadian representative here in connection with League of Nations activities. Ottawa will now be systematically advised about League activities by Dr. Riddell, who is quite familiar with Geneva atmosphere, from the fact that he is now the Canadian representative on the governing board of the International Labor Bureau, which holds the same position in the labor organization that the council does in the League of Nations.

Tells About Wheat Pool

President McPhail Speaks to American Farmers at Washington

Washington.—The experience of Canadian farmers in the formation of co-operative marketing associations is the subject of much discussion among the delegates to the meeting of the National Council of Farmers' Co-operative Marketing Associations, now in session here. The presence of A. J. McPhail, President of the Canadian Co-operative Wheat Producers' Ltd. of Saskatchewan, has enabled many of the agricultural leaders prominent in the co-operative marketing movement on this side to obtain first-hand information as to the working of the system in the Canadian west.

Mr. McPhail has given the convention a detailed history of the movement to the Canadian wheat pool, to which he said some 65,000 farmers now belong. United States agricultural leaders here, after hearing him, declared the Canadian project was a sound one, and not a speculative venture. They predicted that it would continue to succeed. Some of them declared, too, that the fact that the price of wheat at Winnipeg is higher than in the United States is due to the wheat pool. The fact that the Canadian farmers in the pool are not now forced to dump their wheat into a market they expressed as they thought, but can wait for a favorable price, was one of the features widely discussed among the members of the council.

Britain and U.S. In Agreement On War Claims

Paris.—The Anglo-American differences over the payment to the United States of claims for war damages and claims were practically settled on the first day of the conference of the allied finance ministers, which met in a session lasting 40 minutes. Both countries made concessions from the viewpoint of the respective positions, in an exchange of diplomatic notes, and a private and informal conversation between Winston Churchill, British Chancellor of the Exchequer, and James A. Logan, United States representative, harmonized the respective positions, which appeared very far apart. It is irreconcilable, prior to the conference.

By conceding an extension of time for the payment of the costs of the United States army of occupation from 12 years to 25 years, the United States obtained the assent of Great Britain to her sharing in the Dawes plan of annuities by being allotted a certain percentage under the war agreement, probably three per cent, which is likely to come from Belgium.

Should Train Canadian Youth

War Veterans Soon Passing Age Limit Says Major-General Leasard

Montreal.—That it is a foolish argument for people to say that since Canada has nearly 10 million veterans of the great war, there is no necessity for the country to spend any money in training the Canadian youth, was conviction of Major-General F. L. Leasard, C.B., in an address here. "If we have nearly 10 million veterans, but they are getting older every day, that the war is now ten years old, and in a few years these men who served their country in the Great War will have passed the age limit for further service, and they will have lost this argument, would have neither veterans nor militia."

New German Cruiser Launched

Has 8 Major Guns and Speed of 28 Knots

Berlin.—A new German cruiser has been launched at Wilhelmshaven. She was christened by Admiral Hinkler at the Bremen after the famous war-time German raider which sank so many British merchantmen in the Indian Ocean during the war. She was the Australian raider Sydney. The new cruiser displaces 6,000 tons. She has a speed of 28 knots and will carry eight 150-millimeter guns.

Protocol Failure May End Arms Conference

Dominions' Attitude On Proposed Empire Meat Cauter Mix-up

London.—If neither the Geneva protocol nor Amman Chamberlain's alternative scheme is approved, the disarmament conference of the League of Nations which is scheduled for March will be a failure. The natural outcome of the action of the nations of the world will be the formation of those great national combinations which have so long been a feature of the diplomacy of Europe, and begin again that armament rivalry which was a feature before the Great War.

This is the opinion expressed to the British United Press by a high official of the Government in emphasizing the gravity of the decision of the Dominions to abstain from part in the proposed imperial conference.

Says Allies Violating Treaty

Geneva.—The German note in reply to the allied ultimatum on the continued occupation of the Cologne area, received in Paris. It declares the action of the allies is a repudiation and violation of the Treaty of Versailles. French official circles say it is a "merely a note of protest which does not call for a response."

RESOLUTION ASKS FOR REDUCTION IN CUSTOMS TARIFF

Regina.—Unanimous assent was given in the Saskatchewan Legislature to a resolution urging substantial reductions in the customs' tariff to bring down the high cost of living and reduce the cost of the instruments of production and calling for an increase of the British preference to 50 per cent. of the general tariff and the establishment of reciprocity with the United States.

J. M. Parker (Government, Touchwood) sponsored the resolution which was seconded by A. Hermanson (Government, Carleton Place).

At the close of the debate a division was called for by P. L. Hyde (Government, Melfort). The result of the vote showed every member of the house in favor of the motion.

The resolution was introduced as follows:

"That this Legislature be of opinion that the best interests of Canada demand that substantial reductions of the burdens of customs taxation be made with a view to the accomplishing of two purposes of the highest importance. First, diminishing the very high cost of living which press so severely on the masses of the people; second, reducing the cost of the instruments of production in the industries based on the natural resources of the Dominion; the vigorous development of which is essential to the progress and prosperity of our country."

Huskies Finish Hard Trip

Teams in Charge of Famous 'Derby Drivers' Reach Calgary From Banff

Calgary.—With a crackle of whips and the drivers shouting encouragement, went two teams of snapping, snarling huskies, attached to a couple of light sleds, mushed into the city from Banff, after a journey of more than 90 miles over one of the roughest and most dangerous trails ever negotiated by a team of huskies. The team of huskies, in charge of Harry Kleit, winner of the 1924 Banff Dog Derby, and Reg. Harris and George Childs, all of Banff, left the mountain resort for Calgary, and after an adventurous trip, which Harris almost lost his life when he fell into the Bow River, they finally arrived.

War Veterans Soon Passing Age Limit

Says Major-General Leasard

Montreal.—That it is a foolish argument for people to say that since Canada has nearly 10 million veterans of the great war, there is no necessity for the country to spend any money in training the Canadian youth, was conviction of Major-General F. L. Leasard, C.B., in an address here. "If we have nearly 10 million veterans, but they are getting older every day, that the war is now ten years old, and in a few years these men who served their country in the Great War will have passed the age limit for further service, and they will have lost this argument, would have neither veterans nor militia."

It declares the action of the allies is a repudiation and violation of the Treaty of Versailles. French official circles say it is a "merely a note of protest which does not call for a response."

HOCKEY

BELLEVUE ENJOYS A GOALFEET

The big league game at the Blairmore arena on Monday night afforded nothing more nor less than a poor form of entertainment for fans and an easy goalfeet for the visiting team. What happened the locals can only be conjectured, but from all appearances the boys were not in form. Added to this was the very unpleasant feature of having members of the local team spend periods aggregating one-third the total time in the penalty box, and the consequent playing of five men or less during that time. The game was well handled by Lawrence, of Lethbridge, and most of his awards were considered just.

The opening period afforded a good brand of hockey and for a time even the visitors held out but little hope of winning. The scoring in this period was equal, 1 to 1. The second period was not so good, but ended in a four to two score. The third period afforded a picnic for the visitors, the locals being anything but well organized, and in less than twenty minutes no less than six counts were registered in favor of Bellevue.

FIRST REAL LEAGUE-HINGER AT COLEMAN TOMORROW

All interest is being centered on the two big games between Bellevue and Coleman, upon which it is figured the league standing hinges. The first of the series will be played on Coleman arena on Friday night. A special train will run from Hillcrest station to Coleman and returning after the game the special coaches will be attached to the eastbound passenger train. Tickets are in great demand, and it is questionable whether Coleman's 2000-seat arena will accommodate the great number of fans on

this occasion.

A special train will leave Burnie at 6.20 p.m., Hillcrest 6.45, Frank 6.55, and Blairmore 7.05. Fares return will be: Hillcrest 50c, Frank 45c, Blairmore 25c.

Both teams are tied, having played four games each and lost none.

The second game will be played on the Bellevue arena on Tuesday evening, and a special train will be used on this occasion, leaving Coleman at 6.45, Blairmore at 7.10, and Frank at 7.20; and returning will leave Hillcrest station shortly after the game.

In addition to the special trains, autos, sleighs, aeroplanes and seaplanes will also be used in getting interested fans to these games.

We understand that hammocks are being hung to the rafters of both arenas and that special fares are being charged occupants of such choice positions.

BLAIRMORE INTERMEDIATES TIE WITH BELLEVUE

Blairmore Intermediates played a full-time tie, 5 to 5, with Bellevue on the Bellevue arena on Tuesday night. The game was one of the fastest throughout ever witnessed, and all through was simply a matter of scoring and tying. Three ten-minute overtime periods failed to break the tie.

COLEMAN JUNIORS PLAY AT BLAIRMORE TONIGHT

The Coleman Juniors, runners-up for the provincial championship, will play the Blairmore "Huskies" intermediates, at the local arena tonight and no one should fail to see the game. The locals are out to win the league and are hot-foot after the Crutchanks Cup.

For the game tonight a special adult admission fee of 25 cents is being charged, in the hope of enlisting greater interest in intermediate and junior hockey. Children will be

charged the nominal entrance fee of 10 cents.

LETHBRIDGE DISQUALIFIES

We understand that because certain members of the Lethbridge senior hockey club not having complied with the rules regarding registration, the team has been temporarily suspended. As a consequence, the senior game scheduled for tonight at Lethbridge with Blairmore will be regarded only as an exhibition game.

Lethbridge will likely play an exhibition game at Blairmore on Monday night.

Blairmore is due to play Coleman on Thursday night next, at Coleman, while Lethbridge plays at Bellevue the following night.

JOHNNY'S RHYME

Teacher asked her class if they could compose a rhyme using the word "Nellie." She finally called on Johnny, who arose much embarrassed:

"There was a little girl named Nellie

Who fell in the water and wet her feet."

"Why, Johnny, that doesn't rhyme." "I know it doesn't. The water wasn't deep enough."

One of the simplest ways by which you can show a newspaper you appreciate it is by being prompt with your subscription renewal. Hundreds of subscriptions expire this month. Prompt renewals will make us happy.

LANGUAGE TRAPS

A local woman the other day became alarmed at the apparent increased price she was paying for her meat. She sent her daughter to a meat market to interview the butcher. On arriving at the shop she exclaimed excitedly: "How is it you are dearer to me now than when we were first engaged." The young butcher still blushes.

UNION BANK OF CANADA

60th Annual Statement, 29th November, 1924

W. R. ALLAN, President. J. W. HAMILTON, General Manager.

AUDITORS' REPORT TO THE SHAREHOLDERS

We have compared the above Statement of Liabilities and Assets with the Books and Accounts at Head Office and with the certified returns from the Branches. We have verified the securities representing the investments of the Bank at the close of the financial year, when we also checked the cash and verified the securities at several of the principal Branches. We report that we have obtained all the information and explanations which we have required; that all transactions of the Bank which have come under our notice have, in our opinion, been within the powers of the Bank; and that the above Statement of Liabilities and Assets as at 29th November, 1924, is, in our opinion, properly drawn up so as to disclose the true condition of the Bank, according to the best of our information and the explanations given to us, and as shown by the Books of the Bank.

E. S. HEALD, of GEORGE A. TONGER & CO., Auditors

Canada's Day Is Dawning

In the article appearing in this column last week, entitled "The West's Rapid Growth," a passing reference was made to President Coolidge's statement that the United States must prepare for the day not far distant when it would become a food importing instead of a food exporting country. The view expressed by President Coolidge is so important, and has such a direct bearing on Canada's future, that it is worthy of more extended mention and consideration.

In his address, which was delivered before the Association of Land Grant Colleges, the President said: "Preparation must be made for the time, fast approaching, when we are to be one of the greatest of the agricultural buying countries." In a few years the natural increase of population, and the inevitable tendency to industrialization will place us among the nations producing a deficit rather than a surplus of agricultural staples. It may not be generally known, but even now we consume more calories of food in this country than we produce."

With the United States withdrawing from the list of nations having a surplus of food products to export, it naturally follows that the demand for Canadian food products in foreign markets will increase, including not only wheat and wheat products, but also meat, fish, butter, cheese, poultry, eggs, fruit and vegetables. More important still is the fact that, with the United States forced to import food supplies, the source of supply to which the people of the republic will inevitably turn is Canada. This Dominion will be the nearest market, transportation costs will be lower than from elsewhere, and, by reason of the short distance, our food products can be delivered in better condition than those requiring to be transported longer distances by sea and rail.

These are not the only advantages which Canada will enjoy in catering to the food demands of the United States. Speaking the same language, with a uniform monetary system, with a more intimate knowledge of United States customs and tastes, the development and conduct of business will be easier for us than for all other foreign countries.

But it is not the United States alone which will be turning to Canada for ever increasing food supplies. The British Government is even now giving consideration to the appointment of an Imperial Economic Commission whose primary duty would be the bringing of the food commodities of the Overseas British Dominions more prominently before the home country consumers than now, and involving improvement in marketing conditions and better systems of handling foodstuffs so as to avoid waste and loss. With the United States gradually retiring from the export of foodstuffs, the work of such a Commission should be comparatively easy, but none the less important.

In fact it would almost appear that these developments are already taking place. The United States Department of Commerce recently issued a statement showing that the use of Canadian flour has extended enormously in the United Kingdom at the expense of U.S. flour. The same thing is shown to be true in the case of Ireland, where direct imports of U.S. flour in 1921 amounted to 1,402,000 hundredweights as compared with \$21,000 hundredweights from Canada, whereas during the first nine months of 1924 the United States only supplied Ireland with 416,000 cwt, while Canada supplied 794,000 cwt.

With the United States forced to face the necessity of withdrawing from the export of food, and, instead, to import it, Canada, on the other hand, in the position of being able to enormously increase its food production in almost all lines. Millions of acres of arable land still await settlement and cultivation, and, with the United States discouraging and largely prohibiting immigration, this Dominion is due to receive the necessary population to settle and develop these recent spaces.

Canada has passed through difficult periods during and since the Great War. It is carrying a heavy burden of war debt which can only be lightened by increasing the number of people to share it, and which can be ultimately paid off through the development of the natural wealth-producing resources of the Dominion. But Canada's prospects were never brighter nor more encouraging than at the present time, and those who because of depressing and difficulties, have been discouraged, can take heart and with renewed courage throw themselves with energy into the work of the more prosperous era now dawning.

Receive Radio Message

Inside Bank's Vault

Wall is 27 inches Thick and Door Was Closed

Radio station WOS, Jefferson City, Mo., announced that a letter from the First Savings Bank of Palmyra, Missouri, said a programme from WOS had been received on a super-heterodyne set placed inside the bank's vault. The letter said the vault's walls were 27 inches of steel and concrete, and that during the reception of the programme the vault door was closed.

Hollanders Made Good

That Hollanders, who have located in Alberta, are making good and are satisfied, is the statement of Baron W. Van Heekeren, of Rotterdam, after a tour of investigation.

Many View Alberta Pictures

Pictures Shown at Wembley Create

Much Interest

The Alberta pictures at the Wembley Exhibition last summer were viewed by a grand total of at least 100,000 people, according to information received by the Government Publicity Branch from Dr. W. J. Black of Ottawa. The results are said to be already showing in the way of generally increased interest in things Canadian throughout England and Scotland.

Wellington Never Saw Napoleon

"I never saw Bonaparte," said the Duke of Wellington, "though he was once, during the Battle of Waterloo, within a quarter of a mile of me. The day was dark—there was a good deal of rain in the air."

Sending Pictures By Wire

Telegraph Pictures, Known as the

Telepic, Proven to be Practicable

Transmission of pictures across the continent by telegraph by an instrument known as telepic (telegraph pictures) has been demonstrated as practicable, says the Chicago Tribune, which is joint owner with the New York Daily News of the process.

Pictures of the Notre-Dame-Ladue Stanford game in Pasadena, Cal., were transmitted by the telepic to Chicago and New York for printing in the formal inauguration of the operation.

The telepic will both send and receive pictures by telegraphic dots and dashes, requires an hour to 75 minutes to transmit an ordinary photograph.

Hoping For Larger Trade

Conditions Should Improve Between

Canada and British Isles

Hon. F. C. Larkin, Canadian High Commissioner in London, says in a New Year message to the Canadian Press that there appears to be a prospect that new means may be found to place the trade relationship between the British Isles and Canada on an improved basis.

"One may look forward with some confidence to a satisfactory solution of this question to the benefit of both the Dominion and the Motherland," he adds.

WEAK DIGESTION DUE TO POOR BLOOD

Perfect Digestion Will Come if the

Blood is Made Rich and Red

There is no tonic for the stomach that is not a tonic for every other part of the body. But the stomach depends, as does every other organ, on the blood for its energy.

There can be no perfect digestion unless you have rich, red blood. This is scientifically true. The way, then, to tone up the stomach is to enrich the blood.

Most stomach troubles try to digest your food for you. How much better it is to tone up the stomach so that it will do for own work, as nature intended. There is no pleasure in eating digested food. Tone up your stomach, then your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin, you need Dr. Williams' Pink Pills to restore the strength to your blood; in addition use care in the selection of your diet and your stomach trouble will soon pass away. Mrs. Charles La Rose, Fruitland, Ont., suffered severely, and tells what Dr. Williams' Pink Pills did for her. She says: "I was a terrible sufferer from stomach trouble. The doctor called it nervous indigestion. Everything I ate distressed me, and I became so weak and run-down I could hardly walk. I had a pain around my breast most of the time, and I slept very poorly. I was afraid I would not get well, as the doctor's medicine was helping me. In this serious condition Dr. Williams' Pink Pills were recommended and I decided to try them. I can truthfully say that they made me feel like a new person. I will always give this medicine a word of praise when I get a chance for I think there is nothing to be compared with it for dyspepsia, or any one weak, nervous or run-down."

You can get these Pills from any medicine dealer or by mail at 40¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

King Edward's Biography

First of Two Volumes Will be Published

in March

The first of two promised volumes of the biography of King Edward VII, undertaken by Sir Sidney Lee at the request of King George, will be published early in March. It tells the story of King Edward's life from his birth on November 9, 1841, to his accession on January 22, 1901.

All his wide interests will be touched upon, and it is said that the book presents a very humane and many-sided personality.

"The cheapness of Mother Graves' War Exterminator pill is within reach of all, and it is not at all a drug's drug."

New Source Of Power

Volterra, Italy, Using Steam From

Centre of Earth

A learned professor has advanced the theory that great and simple heating power is to be found and utilized in the earth's mother regions. A beginning along these lines has already been made at Volterra, in Italy, where a new source of power has been found in the high temperature steam from Fumaroles, which has previously been used only as a source of heat.

Now the steam is being tapped by boring, and its chief heat is employed in running great power stations.

An Old Slang Expression

The slang expression, "I'll tell the world," which is so commonly used today, is not new, but had its origin in one of Shakespeare's plays. It was first uttered by Iachimo in "Measure for Measure." "I'll tell the world," said Iachimo, "I'll tell the world, what kind of man thou art."

Packing Industry Returns

The number of hogs slaughtered in the packing industry in Canada during 1923 was 2,554,291, an increase of 223,182 over the previous year, according to a Government estimate. The number of cattle and sheep slaughtered were 312,147 and 199,745 respectively.

Automobiles are taxed \$5 a horse-power in England.

For Every Ill—Miner's Liniment

Immigration To Canada

Recent Figures Compiled For First

Eleven Months of 1924

Immigration to Canada from all sources for the first eleven months of 1924 totalled 121,486, according to an official statement recently issued. Of this number, 56,325 were British, 15,687 from the United States and 49,474 from other countries.

The total movement is 9,946 less than for the same period in 1923, a decrease of seven per cent, but this difference is more than accounted for by the fact that a movement of 11,700 British harvesters in 1923 was not repeated in 1924. When allowance is made for the harvesters movement, British immigration shows a slight increase over 1923, immigration from other countries, excluding the United States, increased by 6,150.

The movement of United States citizens into the Dominion decreased in 1924 by 5,645, when compared with 1923, but these figures make no allowance for the large number of Canadians now returning to Canada, after having lived on the other side of the boundary for six months or longer.

Canadians who have returned from the United States in the eight months for which records are now complete total 34,152.

Ontario Gold Output

All Records Broken for the Month of

December

Preliminary figures covering the month of December show the gold mines of Northern Ontario produced more gold than for any previous month in the history of the industry. Asahi all tonnage records were broken, and once more the general advance from the mines is at that outstanding progress. The aggregate income of the producing gold mines companies exceeded \$2,400,000 for the first time on record in this province. The figures show that while the total output for 1924 was about \$25,000,000 yet the mines are entering the year 1925 with production at a rate close to \$30,000,000 a year.

Search For Missing Yacht

Radio Is Called Upon to Aid in Locat-

ing Ship in Arctic

Continued-wide radio queries now are searching along the northwestern coast of Labrador and Baffin Land, for an endeavor to find the whereabouts of the 40-foot yacht Let Erickson, in command of W. Nutting, an American, who with three countrymen and a Danish navigator, took off from St. John's, Nfld., Sept. 8, in an attempt to reach New York via Iceland, Greenland and Labrador.

Radio fans recently have been listening in on station CFCN, Calgary, warning trading posts and missions along the coast to be on the lookout for the yacht.

Had Thrilling Adventure

Duke of York Charged By Wounded

Rhinoceros

The Duke of York, second son of King George, who is visiting Kenya with his bride, had a thrilling experience while on a rhinoceros hunt.

The duke stalked a huge rhinoceros and fired on him, whereupon the animal charged. The royal hunter stood his ground and fired again when the rhino was 20 yards from him. The big game hunter, Anderson, another member of the party, fired simultaneously, and the rhino fell dead.

The duke is described as being delighted with his adventure.

May Tour Canada

Party of English School Boys May

Visit Dominion

A pilgrimage of English school boys may tour the Dominion under the auspices of the Overseas Educational League, as a result of a Canadian official's visit to England to interest secondary school associations in the scheme. The proposed party will consist of 150 representative public school boys with their teachers and possibly representatives of the educational authorities and the Inspectorate.

Every careful and observant mother knows how her child suffers from worms. She also knows that if some remedy be not speedily applied much harm will result. An excellent preparation for this purpose is Miller's Worm Powders. They drive worms from the system and set up attacking and soothing effects, so that the child's progress thereafter is painless and satisfying.

Establish Mining Bureau

The formation of a Mining Bureau as a branch of its activities, has been announced by the Winnipeg Board of Trade. The bureau will collect data on the mining situation in the province and will do everything possible to foster greater mineral production in Manitoba.

Co-operation Profitable

According to figures gathered by the Provincial Department of Agriculture, 46 co-operative organizations in Alberta, including the wheat pool, had a total turnover in 1923 of \$37,728,000.

Sunday Island, in the Pacific, rising 3,000 feet out of five miles of water, really is the tallest mountain in the world.

A 1923 fork in an English household is believed to be the oldest in existence.

Miner's Liniment for the Grippe

Insist on BAYER TABLETS OF ASPIRIN

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians 24 years for

Colds Headache
Pain Neuralgia
Toothache Lumbago
Neritis Rheumatism

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 10 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monrovia, Germany. (Inventor of Aspirin) A. S. A. 71. While it is well known that Aspirin means Bayer manufacture, to avoid the public being misled, the Tablets of Bayer Company will be stamped with their special trade mark, the "Bayer Cross."

Bacon Standardization

Whole Question Is Under Consideration

At Ottawa

The whole question of the standardization of Canadian bacon for export is still under construction by the Department of Agriculture, and nothing can be announced just now on any particular phase of the question. It was stated by officials of the department in connection with the announcement from Toronto that the branding of Canadian export bacon probably would be ordered by Ottawa.

Plan Long Flight

Tokio Newspaper Planning Flight

From Japan to Europe

An aeroplanes flight from Japan to Europe will be attempted next spring under the auspices of the Asahi, a Tokyo newspaper. Two Biguet aeroplanes, which are to be fitted with 400 horsepower Lorraine engines, ordered from France, are now being assembled for the flight. The Asahi says the Imperial Government, including the naval, military and radio departments, will co-operate.

Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial remedies ever offered to the use of man. Many can testify as to its power in allaying pain, and many more can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

A Young Artist

Ten-Year-Old Boy Wins Honors in

Contest

Three professional artists and twenty-six art supervisors of the public schools, acting as judges of a painting contest by 3,000 school children, decided that the master artist of the thousands of youthful rivals is Duncan Campbell, 10 years old, of Brockville. He won two gold medals, one for his work and the other one for establishing an artistic record that has not been exceeded since the contest was founded thirteen years ago.

Decreased Imports From Canada

The United States imported goods from Canada valued at \$35,142,554 during the month of November, 1924, as compared with goods valued at \$38,452,097 during the same period the year before.

Exports to Canada during November, 1924, were valued at \$53,107,707, as compared with exports valued at \$45,743,735 in November, 1923.

Establish Mining Bureau

The formation of a Mining Bureau as a branch of its activities, has been announced by the Winnipeg Board of Trade. The bureau will collect data on the mining situation in the province and will do everything possible to foster greater mineral production in Manitoba.

Want Gold Export

Embargo Continued

B.C. Mining Men and Wholesale

Merchants Push Resolution at

Vancouver

A resolution asking that the embargo on the export of Canadian gold be not lifted in July but extended for another year, that no permit for the export of placer gold be granted in British Columbia, and that the present mining act, as it affects gold exports, be renewed when it comes up for revision a year from next July, was passed at a meeting of representative mining men and wholesale merchants at Vancouver.

Sale Of Beer

Manitoba Government Declines To

Consider Beer License Demand

Amendment of the Manitoba Government Liquor Control Act to conform with Alberta and Quebec legislation permitting sale of beer in licensed hotels, could not be consistently made by the Government of Manitoba, Premier John Bracken and Attorney-General R. W. Craig informed a delegation of Winnipeg hotel keepers.

The hotel men insisted that public opinion had changed considerably since the last referendum dealing with the sale of beer and light wines.

Manitoba Stone Quarries

Secure Large Contract For Building to

Be Erected in Montreal

In competition with a large number of quarries both in Canada and the United States, a local company was successful in securing the contract to supply a large quantity of stone for the new apartment building which is being erected in Montreal. The stone will be taken from the property at Garson, Man., and a large number of planners and quarries will be engaged all winter in supplying the necessary stone for this order.

Satisfied With Test

Anson Flettner's sailless, wind-driven ship, Buckau, attained a speed of 9 knots in a trial in a heavy sea. When the test was ended Flettner said he was satisfied with the seaworthiness of his vessel in rough-weather. The Buckau has left on a cruise to Lubek and possibly to Sweden.

An airplane recently built by a European mechanic is operated by foot pedals, and has flapping wings like a bird.

After taking one box I felt a slight improvement. I have now taken five boxes, and have gained 25 pounds in weight. I am now more than able to do all my own housework as well as a considerable outside work. I cannot recommend it to a lady's friend. It fills too lightly for those suffering as I did."

HEART NERVES SO BAD SHE COULD NOT SLEEP

Mrs. Grace Kitchin, St. George, Ont., writes: "After having a severe attack of pneumonia I was left in a weak and run-down condition. My nerves were so bad I could not sleep at night, and in the day time I had terrible fainting spells, caused by my heart being weak. Finally I got so bad I had to take to my bed for weeks at a time, but one day I read about

MILBURN'S

HEART AND NERVE PILLS

so decided to try them.

After taking one box I felt a slight improvement. I have now taken five boxes, and have gained 25 pounds in weight. I am now more than able to do all my own housework as well as a considerable outside work. I cannot recommend it to a lady's friend. It fills too lightly for those suffering as I did."

Local and General Items

Mr. Speeding, provincial income tax inspector, was in this district last week end.

Coleman Juniors played to a draw with Michel Juniors on the latter's ice on Friday night last.

The school board at Trail, British Columbia, has hired a physical training instructor at a salary of \$2000.

FOR SALE—A number of houses in Blairmore and Coleman. Apply to J. R. Gresham, Phone 230, Blairmore.

Mr. Howard Stutchbury, fuel and trade commissioner for Alberta, visited Blairmore and Coleman on Wednesday.

Mrs. Nellie McClung and Hon. Charles Stewart are mentioned as probable appointees to the Canadian Senate.

Mr. F. Rader, Italian Consular Agent at Lethbridge, has been elected a member of the separate school board of that city.

LOST—A hat, coat, shirt, shoes, seven false teeth, and the power of speech. Finder will please leave same with Hartley Upham, barber.

J. B. Wilson, manager of the local branch of the Union Bank of Canada, is suffering from blood poisoning in the hand and has been confined to his home for several days.

Miss Isobel, second daughter of Mr. and Mrs. Robert Gray, entered the local hospital on Monday evening and on Tuesday morning underwent an operation for appendicitis.

The square miles of standing room in the local post office is being increased by the addition of thirty square feet. Every little bit helps!

FOR SALE—Fully Modern Five-Room Bungalow, with open fireplace and furnace; also lot 40 by 150, fully fenced, and outhouses. For particulars apply to The Blairmore Enterprise.

Arthur Ennis, who has served in the Blairmore goal for the seniors for the past three seasons, has tendered his formal resignation. We understand that M. G. Rhyas has donned the wings.

The will of the late Peter Veregin has been probated. The estate has a sworn value of \$45,593 and has been left to the Christian Community of Universal Brotherhood. Against it are liabilities, chiefly owing to the community, of \$141,450.

The congregation of the Institutional church met only one vote opposing union, when that church decided to enter the new church, while Pincher Creek voted for unanimously. Blairmore congregation will decide on January 25th.

J. G. Freeman, of Crow's Nest, was on Saturday last sentenced to serve three months in jail by Magistrate Gresham for a breach of the Alberta Liquor Control Act. He was also fined five dollars and costs for running a billiard room at Crow's Nest without a license.

A meeting of the Blairmore's Old Boys' Association was held on Thursday night last, President A. E. Ferguson presiding. Collection committees reported having secured \$94.00. This amount and other sums forthcoming will be used to finance the various enterprises of the Association among the boys. Arrangements are being made for a hockey game between the "dads" and the "boys."

Miss Margaret Dunlop has been engaged by the Coleman school board to fill the vacancy on the teaching staff caused through the resignation of Miss McEachern. Sydney White has been engaged to fill Miss Dunlop's position at the Cameron school, West Coleman. Mr. White has been teaching during the past summer north of Edmonton.

After nineteen hundred years, a woman has been discovered who can really keep a secret.

Up to date, about five to one of the Presbyterian churches in Canada have voted to enter the organic union.

WANTED—Sewing of any description, promptly executed. Apply Mrs. Teters, 524 State Street West, Phone 315, Blairmore. [J15-22]

J. Nicholson lost his life in a fire, which destroyed several business places at Delburne on Friday morning last.

A vote taken by the congregation of Knox Presbyterian church, Lethbridge, on the question of union resulted in 249 for union, 143 against.

A Burns' benefit concert will be given in the Bellevue church on the night of Monday, January 26th, commencing at 8 p.m. An excellent programme is promised.

The world has for us just what we have for it. It is a great whispering gallery, which flings back the echo of our voices. If we laugh, it laughs back; if we curse, it curses back.

A "dry" squad from Edmonton searched the rooms of a local hotel on Sunday last in the hope of finding intoxicants in possession of non-holders of 1925 permits. We understand the search was unsuccessful.

Leo Koretz, promoter of the Bayanoo local bubble, who flected scores of friends and relatives out of millions of dollars and who was arrested in Halifax, N.S., after fleeing from the United States, died on Thursday last in the Illinois penitentiary, after a few weeks' confinement.

Blairmore seniors took defeat from the Coleman "Tigers" on Thursday night last in a game which showed up the mettle of the Coleman boys to advantage. The Coleman aggression should go nearer winning the Allan cup than anything ever sent out by Alberta amateur hockey.

Gradually the non-conformist churches of Canada are falling into line with the Blairmore Union church, which latter has the most original idea and the most complete union in the world. So strong is our union here that all the forces of the Ku Klux Klan could not sever it.

They tell of a strange case in a small Missouri town: A man complained of pains in his heel. His physicians removed his teeth, but the pains continued. They removed his tonsils, and still the pains remained. As a final resort, they removed his shoe and the X-Ray revealed a long-embedded needle in his heel.

While there has been considerable kick over local hockey referees, there seemed to be just as much dissatisfaction over the work of Harry Scott in connection with games at Coleman and Bellevue, handled by him last week. The general feeling is that Tommy Clark is the best referee available, but it cannot be expected that the public would be satisfied with the work of a local man.

Miss Charlotte McEachern, who during the past three years has been teacher at the Coleman public school, and for a time engaged in similar work in England in connection with the teachers' exchange plan, has been engaged as teacher on the staff of one of the Lethbridge public schools, and takes up her new duties on February 1st.

Last week end, George Bouthiller lost an envelope containing his fortnight's pay check. The envelope was later picked up by a little girl named Johnson, who took it to the West Coleman office, who in turn forwarded it on to the bank, where it was finally obtained by the owner. Mr. Bouthiller wishes to publicly thank the little girl for her honesty and promptness.

Mrs. E. W. H. Pinkney underwent an operation for appendicitis at the local hospital on Monday morning.

Mr. and Mrs. J. E. Upton and daughter Jean were New Year guests of Supt. and Mrs. Junget at Lethbridge.

Charles Evans Hughes has resigned as secretary of state at Washington, and is succeeded by Frank B. Kellogg.

If you wish to know how explorers feel when frozen in the ice, just tell a woman she looks fine in spite of her age.

Rev. Thomas Powell, superintendent of the Methodist church, was a visitor to Blairmore on Monday afternoon.

Mayor Irvine, all aldermen, police commissioner and school trustees were returned by acclamation at Fernie on Monday.

Some people are like a million dollar check on a ruined bank. They look big, they promise great things, but you cannot cash them.

G. K. Strrett has been elected a member of the Bellevue board of school trustees, succeeding C. Emmerson, whose term of office has expired.

One fan (a visitor) on Thursday remarked that the Coleman machine could whip the Calgary Tigers in an exhibition game. What about it?

COWLEY HAPPENINGS

Nap Cyr is visiting in Battleford and Saskatoon at present.

Mr. and Mrs. James Leigh spent the early part of the week visiting in Calgary.

Miss Helen Morrison has returned to Calgary to finish the teacher's normal course.

Several of the Lundbreck people attended the whist drive and dance held here on Wednesday night.

Clair Snyder has returned to Calgary, where he is attending the Institute of Technology and Art.

The dance held here on Saturday night by the town orchestra was well attended and a good time is reported.

Miss Marjorie Porter, Norman Porter and Stanley Snyder have returned to Claresholm to finish their term at the agricultural school.

E. W. Bromley and family stopped off for a few hours' visit in town on their way home from a visit to their old home in the States. Mr. Bromley is working as station agent at a point north of Edmonton.

In spite of bad roads, a large crowd attended the whist drive held here in the Masonic hall on Wednesday evening. The lucky prize winners were: Ladies' first, Mrs. George Porter; gent's first, Ed. Grove, of Lundbreck. The booby prizes were awarded to Mrs. Fred Tustian and Emilie Fortier. Mrs. Doyle won the special prize. Miss Martha Tustian, Miss Marjorie Smith and Willie McKay were on the committee. Dancing was enjoyed for two hours, excellent music being furnished by local talent.

For the benefit of some local parties, we might state that the big newboy referred to by us last week was not Maurice Bond.

R. G. McNeillie, western general passenger agent, of Winnipeg, and J. E. Proctor, district passenger agent, of Calgary, C.P.R., paid a visit to this district last week end.

Dave's clothing store, opened here but a few weeks ago, is reported as having closed doors today, assignment being made for benefit of creditors through the Canadian Credit Men's Trust Association.

Teacher—"Why are you late?" Pupil—"Father wanted me at home."

Teacher—"Wouldn't someone else have done?" Pupil—"No, he was giving me a spanking."

Any time! Any way!
Eat BREAD.

Bread is your Best Food— Eat more of it.

You can eat slice after slice of it when it's really good bread with the tempting quality that comes from all-pure ingredients.

That means—

MOTHER'S BREAD

The all pure loaf
